

Hadyn Parry, Oxitec

Hadyn has an extensive background in the Life Science sector. During his fifteen-year career at Zeneca/Syngenta he held various positions, including General Manager of Zeneca Plant Sciences and European Director and Global Head of R&D for Advanta, one of the world's largest seed companies. More recently he was CEO of MNL Pharmaceuticals, a company that was focused on pioneering a novel approach in immunology. Hadyn is also Chairman of Help For Heroes, a charity founded in 2007 to support wounded British soldiers.
